

This topographic map illustrates the geographical area around Poggendorf, featuring various land use zones. The map is characterized by contour lines indicating elevation and a network of roads. The zones are color-coded and patterned as follows:

- Blue Hatched Areas:** These areas are primarily located along the southern and eastern edges of the map, likely representing water bodies or specific land management zones.
- Yellow Areas:** Several irregular yellow patches are scattered across the central and northern parts of the map, possibly indicating agricultural land or specific land use designations.
- Green Areas:** A small, irregular green area is located in the upper left quadrant, likely representing a forested or protected area.
- Purple Areas:** These areas are found in the lower right and along the southern edge, possibly indicating urban or developed land.
- Orange Area:** A small orange area is located in the lower right, near the town of Poggendorf.

The map also includes a north arrow in the bottom right corner, pointing towards the top of the page.
