

## A detailed topographic map of a coastal region. The map features dense contour lines indicating elevation, with a prominent ridge running diagonally from the top left towards the center. A red line, possibly representing a boundary or a specific route, starts near the top left and extends towards the bottom right. A network of blue lines, likely representing a drainage system or a proposed infrastructure, crisscrosses the landscape, particularly concentrated in the lower right quadrant. The bottom left corner shows a coastal area with buildings, roads, and a body of water. A north arrow is located in the bottom right corner. Various symbols, including small squares and circles, are scattered across the map, possibly indicating specific points of interest or data collection sites.
